Upcycled Hanging Baskets

1) Choose a basket and liner

Below are some ideas of unwanted items you can recycle and use as a basket instead of throwing it away. It could be a colander, guitar, shoe holders or shoes/ crocs. Think about if there is drainage for water with whatever you choose.

2) Select your plants

You can still buy small/ plug plants to put in your basket. Ideal choices may be geraniums, petunias, lobelia, verbena or fuchsias. For a longer lasting basket choose Hostas, Ivy, Heucheras or Ajuga.

Fill with compost.

Make sure you keep the compost moist, especially when the weather is dry.

The answers

Ladybird Pebble Painting:

- 1. Find a selection of different shaped flat smooth pebbles in your garden.
- 2. Place pebbles in a container and wash in warm water.
- 3. Dry off your pebbles with a paper towel or cloth.
- 4. Put a selection of poster paints into a paint pallet, I used a variety of red, green blue, yellow, black, white, gold, silver. You can use whatever colour you like.
- 5. Apply your first base coat of paint to each pebble using a selection of colours for each bug or creature, I used red or black for ladybirds.
- 6. Allow first base coat to completely dry, for best results apply a second coat for coverage so you cannot see the stone through the paint.
- 7. To make a ladybird draw a line across the pebble end to make a head. Draw two circles for each eye, a line down the middle for wings and draw circles either side for the ladybird spots.
- 8. Paint around the outlines of your pencil drawings in black paint to define the patterns and detail and once dry fill in and paint.
- 9. Paint two white circles at one end for eyes.
- 10. Once the whites of the eyes on your bug are dry you can experiment with painting different colour pupils for the eyes. I used black or red in the centre to make the eyes stand out. I use white paint for the finer detail for the eyes and antennas or whiskers.

Summer Celebration 'Victoria Sandwich' cake

Ingredients
225g or 8oz
margarine or
butter
225g or 8oz
caster sugar
4 eggs (free
range)
225g or 8oz
self-raising
flour
1 tsp baking
powder

Recipe

- 1) Carefully cut out 2 circles of grease proof paper to fit in the bottom of your tins. Next grease your tins before placing the paper into the base of them. Now turn on your oven to either 180c/160c fan/gas mark 4.
- 2) Put the margarine and sugar into a large bowl and using a wooden spoon cream together (you can use an electric mixer if you're lucky enough to have one)
- 3) Carefully break the eggs and put them into your bowl. Beat 'stir hard' the eggs into the sugar and margarine, until smooth.
- 4) Now add your flour and baking powder and fold 'gently stir' it in until smooth
- 5) Divide the mixture as evenly as you can between the two tins and put onto the middle shelf of the oven. Leave to bake for 25 minutes.
- 6) The cakes should be bouncy to the touch and light brown in colour, when cooked. Take them out <u>using oven gloves</u> and place on a suitable surface for 5 minutes before transferring to a cooling rack.
- 7) To assemble place one cake upside down on a plate before adding a thick layer of your favourite Ruby 'raspberry or strawberry' jam. Place the second cake on top and then sprinkle with icing or caster sugar.
